

## **Release Plan**

Team Name: University Token

Product Name: UniToken

Release Date: March 2018

Release Number: 3

Revision Date: February 23, 2018

Revision Number: 3

### **High Level Goals:**

- Create a website with user accounts
- Create a cryptocurrency
- Create marketplace which uses cryptocurrency as a payment method

### **User Stories:**

#### **Sprint 1**

- As a user want to be able to visit the ICO website (2) (1.5 hrs.)
- As a user I want a good looking/credible website so that it's user friendly and the functions are accessible (13) (10 hrs).

#### **Sprint 2**

- As a user, I want to be able to exchange currency for goods and services so that my cryptocurrency actually has a purpose. (8)
- As a user, I want to be able to be able to access my user profile so I can see my information on the website (5)
- As a user, I want to be able to create an account so that I can use the product (5)
- As a developer, I want to be able to search for information in a database so that I can display it on a webpage (3)

#### **Sprint 3**

- As a user, I want an online marketplace so I can buy and sell goals/services (5)
- As a user, I want to be able to login so I can use the marketplace (8).
- As a user, I want to be able to have cryptocurrency (8)
- As a product owner, I want the website to look good so that users can use the website with ease (8)
- As a developer I want MetaMask integration so that I don't have to deal with technical aspects of crypto transfers (5)
- As a user, I want information about the cryptocurrency so I know what it is (3)

### **Product Backlog:**

- As a user, I would like to have a feature (i.e.chat system) that lets me interact with other users so that I can have an immediate response in regards to my purchasing/selling an item.
- As a user, I want to be able to make safe transactions with other users so I know my coin is secure and can only be accessed by me.
- As a user, I want to be able to have advanced search for the marketplace so that I can easily find a specific listing
- As a user, I want to be able to rate sellers and see others' ratings so that I know if the seller is credible or not
