

# Release Plan

Team Name: University Token

Product Name: UniToken

Release Date: March 2018

Release Number: 1

Revision Date: January 23, 2018

Revision Number: 1

## High Level Goals:

- Create a website with user accounts
- Create a cryptocurrency
- User profile details (wallet)
- Be able to make transactions between users (buy, sell, transfer)
- White paper (shows technical aspects, “vision”)
- Marketplace for buying and selling goods and sfw services

## User Stories

### Sprint 1

- As a user want to be able to visit the ICO website (2) (1.5 hrs.)
- As a user I want a good looking/credible website so that it's user friendly and the functions are accessible (13) (10 hrs).
- As a user, I want to have a personal wallet so I store UniTokens. (3) (1 hrs.)
- As a user, I want to be able to create an account so that I can use the product. (5) (10 hrs.)

### Sprint 2

- As a user, I want to be able to exchange currency for goods and services so that my cryptocurrency actually has a purpose. (5)
- As a user, I want to be able to make safe transactions with other users so I know my coin is secure and can only be accessed by me. (13)
- Adding more to website
- Starting internal coin distribution

### Sprint 3

- As an investor, I want to be able to see the specifications of the currency so that I can see the progress of the project and what the goals of the end product will be. (5)
- As a user, I want a good looking/credible website so that it's user friendly and the functions are accessible. (13)

## Product Backlog

- As a user, I would like to have a feature (i.e.chat system) that lets me interact with other users so that I can have an immediate response in regards to my purchasing/selling an item.
- We don't have many stories in the backlog because we tried to integrate as many as possible since they are all important to our project.
